Design with colour

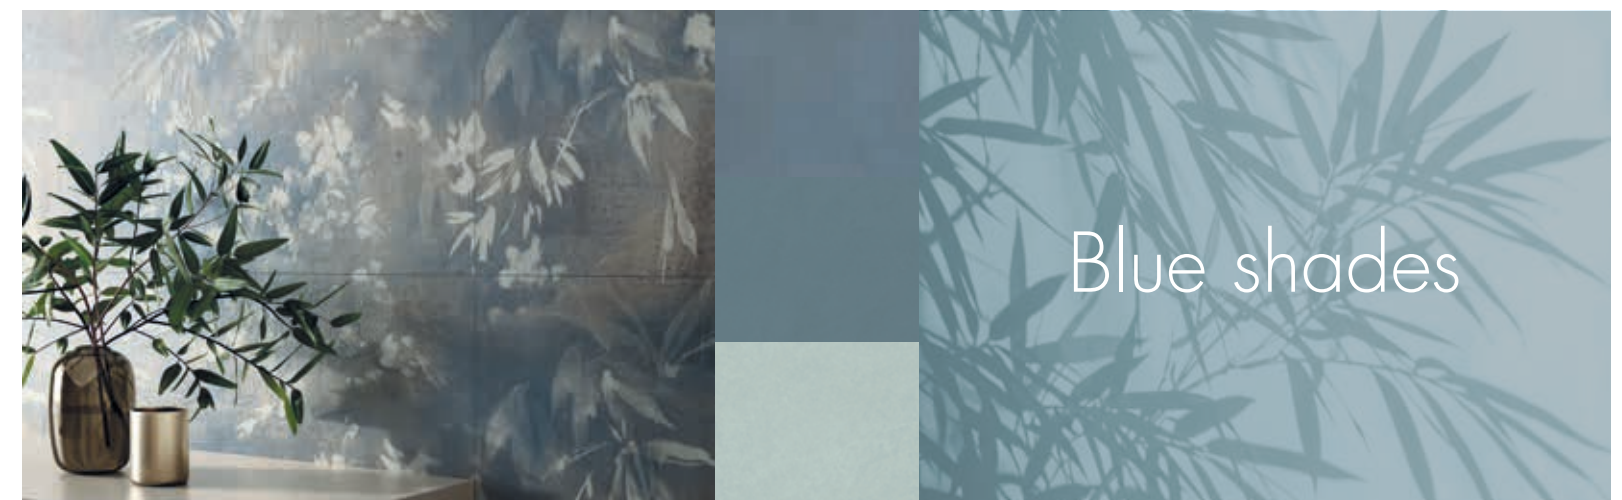

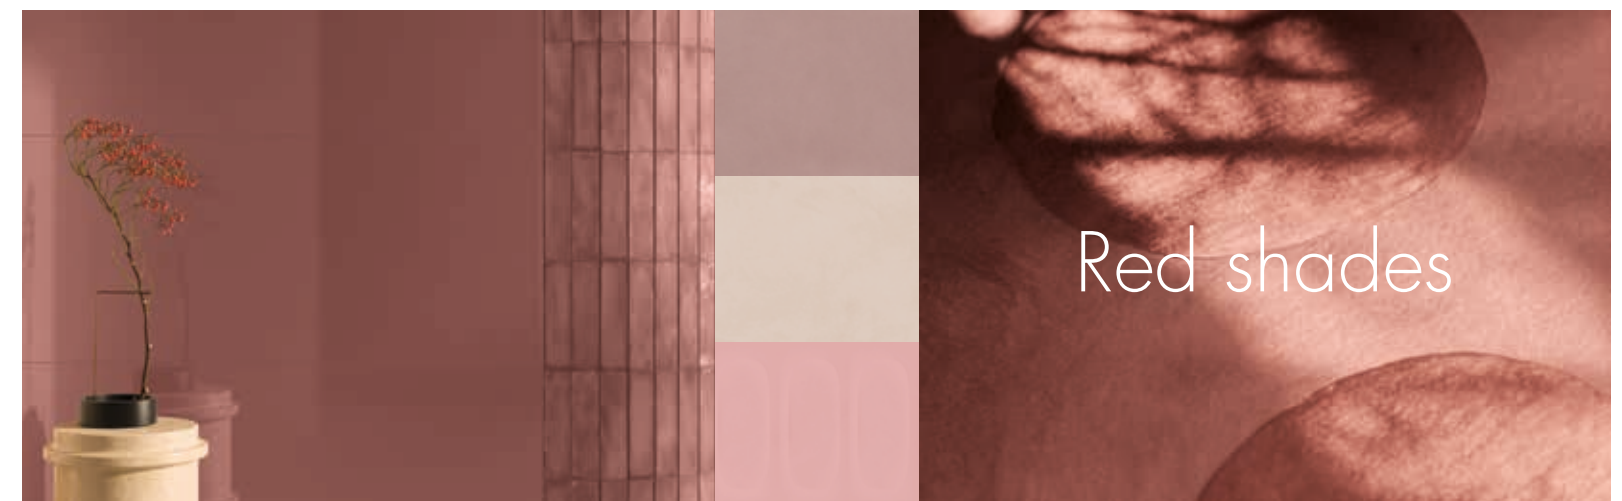

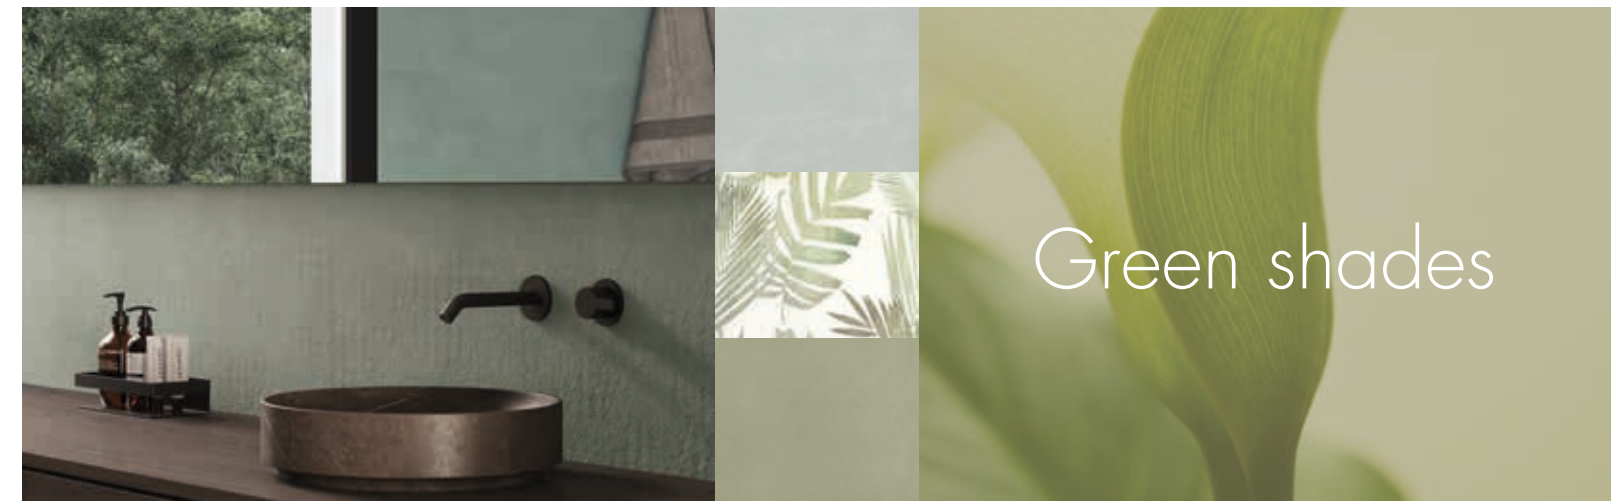

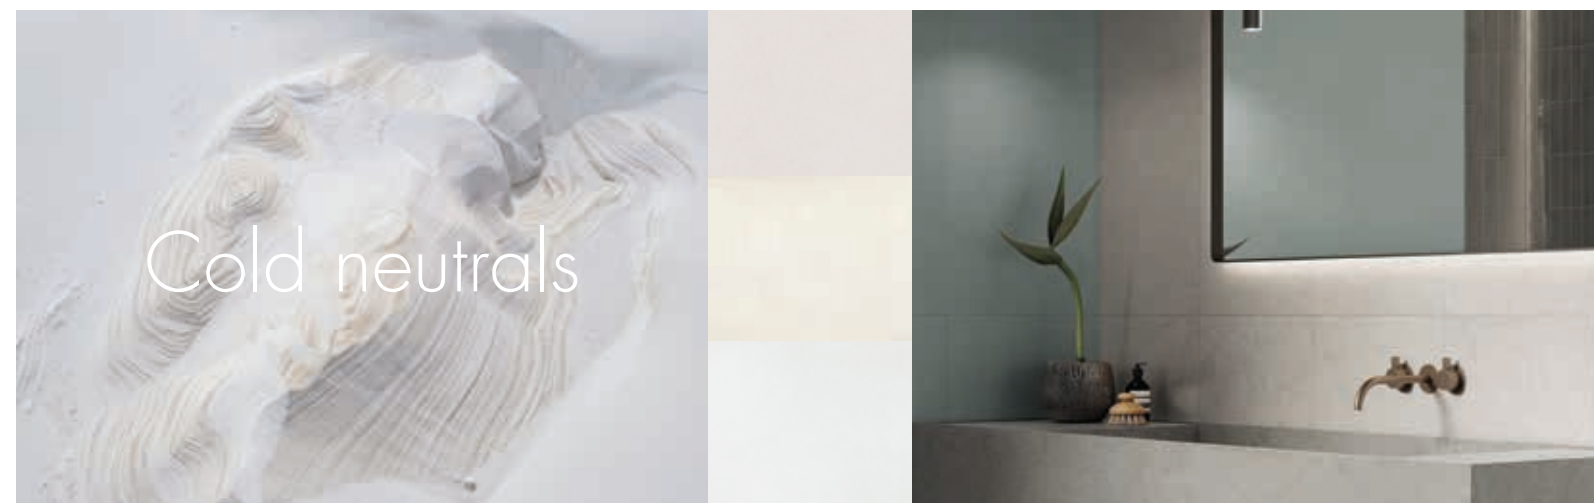

Il colore come strumento progettuale.

Il colore in Wall Design Project è uno strumento per orientare la luce e costruire atmosfere. Il sistema organizza la gamma in 6 palette coordinate per facilitare abbinamenti e dialogo tra superfici, trasformando ogni tonalità in un elemento chiave per progettare pareti personali e contemporanee.

In Wall Design Project, colour is an essential tool to direct light and shape atmospheres. The system organizes the range into 6 coordinated palettes to facilitate pairings and surface dialogue, turning every shade into a key element for designing distinctive, contemporary walls.

La couleur au sein du Wall Design Project est un outil privilégié pour orienter la lumière et créer des ambiances. Le système s'articule autour de 6 palettes coordonnées afin de faciliter les associations et le dialogue entre les surfaces, faisant de chaque nuance un élément clé pour concevoir des murs personnalisés et contemporains.

Farbe ist im Wall Design Project ein Instrument, um Licht zu lenken und Atmosphären zu schaffen. Das System gliedert die Kollektion in 6 aufeinander abgestimmte Farbwelten, um harmonische Kombinationen und den Dialog zwischen verschiedenen Oberflächen zu fördern und jeden Farbton zu einem Schlüsselement für ausdrucksstarke, moderne Wände zu machen.

360° Surfaces

Versatilità in superficie.

Le finiture matt, glossy e le strutture tridimensionali modulano la luce aggiungendo vibrazioni tattili e contrasti dinamici che definiscono il carattere dello spazio.

Le superfici 3D donano ritmo e profondità alle pareti attraverso rilievi e geometrie che interagiscono con la luce. Wall Design Project offre massima versatilità, permettendo di applicare anche la finitura glossy alle strutture tridimensionali per valorizzare ogni tipologia di ambiente.

La decorazione è parte integrante del progetto: decori realizzati con ripresa grafica su ogni lato ampliano le possibilità espressive e permettono di creare quinte scenografiche in perfetto dialogo con colori e strutture.

Matt and glossy finishes alongside three-dimensional structures sculpt the light, adding tactile vibrations and dynamic contrasts that shape the identity of the space.

3D surfaces infuse walls with rhythm and depth through textures and geometries that interact with light. Wall Design Project provides ultimate versatility, allowing the glossy finish to be applied to 3D reliefs as well, enhancing any type of interior.

Decoration is an integral component of the project: decors crafted with continuous pattern matching on every edge expand expressive potential and create scenic backdrops in seamless harmony with colours and textures.

Les finitions mates ou brillantes et les structures tridimensionnelles modulent la lumière tout en apportant des vibrations tactiles et des contrastes dynamiques qui affirment le caractère des lieux.

Les surfaces 3D confèrent rythme et profondeur aux parois grâce à des reliefs et des géométries qui jouent avec la lumière. Wall Design Project offre une polyvalence absolue, en permettant d'appliquer la finition glossy également sur les structures 3D pour sublimer chaque espace.

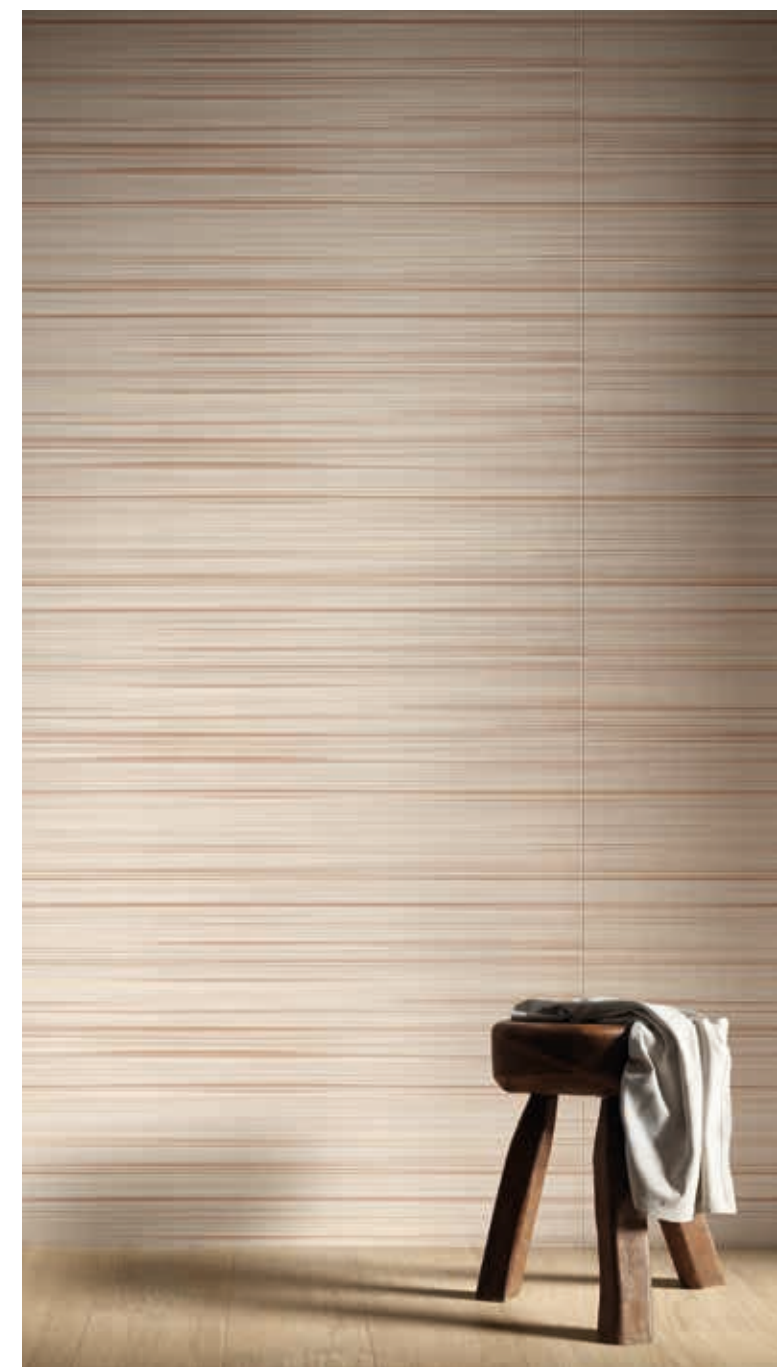

Le décor fait partie intégrante du projet : des motifs continus bord à bord élargissent le champ créatif et permettent de composer des décors scénographiques en parfait accord avec les couleurs et les reliefs.

Matte und glänzende Oberflächen sowie dreidimensionale Strukturen modulieren das Licht und setzen haptische Akzente sowie dynamische Kontraste, die den Charakter des Raumes prägen.

3D-Oberflächen verleihen den Wänden durch Reliefs und geometrische Texturen im Spiel mit dem Licht Rhythmus und Tiefe. Wall Design Project bietet maximale Flexibilität: So lassen sich auch 3D-Reliefs mit glänzendem Finish veredeln, um jedes Ambiente gekonnt in Szene zu setzen.

Das Dekor ist fester Bestandteil des Konzepts: Kantenübergreifend fortlaufende Dekore erweitern die gestalterischen Möglichkeiten und schaffen bühnenreife Kulissen im perfekten Einklang mit Farben und Strukturen.

White body beauty La resa estetica della pasta bianca.

La pasta bianca esalta l'estetica della parete: la sua base luminosa valorizza la purezza dei fondi, la brillantezza dei colori e la precisione dei decori. Wall Design Project garantisce una resa cromatica intensa e una qualità visiva distintiva per ogni progetto d'interni.

White body ceramic enhances the visual impact of walls: its luminous base brings out the purity of backgrounds, the radiance of colours, and the precision of decorative patterns. Wall Design Project ensures intense colour rendering and distinct visual refinement for every interior design concept.

La pâte blanche magnifie l'esthétique du mur : son support lumineux sublime la pureté des fonds, l'éclat des couleurs et la netteté des décors. Wall Design Project garantit un rendu chromatique intense et une qualité visuelle incomparable pour chaque projet d'architecture d'intérieur.

Weißer Scherben bringt die Ästhetik der Wand voll zur Geltung: Seine helle, leuchtende Basis unterstreicht die Reinheit der Grundfliesen, die Brillanz der Farben und die Präzision der Dekore. Wall Design Project gewährleistet eine intensive Farbwiedergabe und eine unverwechselbare visuelle Qualität für jedes Innenraumprojekt.

Neutral Cold

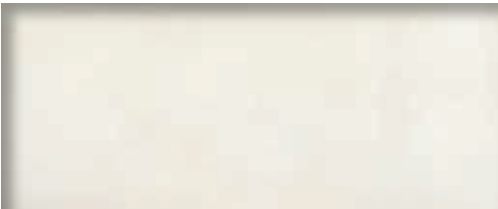

Neutri freddi, equilibrio essenziale.

I neutri freddi interpretano la parete con un linguaggio luminoso e architettonico. Bianchi, grigi, perla e tonalità minerali creano superfici leggere, capaci di valorizzare la luce e amplificare gli ambienti. Una palette per progetti contemporanei, dove l'essenzialità cromatica diventa base per abbinamenti tono su tono, contrasti grafici o relazioni con effetti cemento, pietra, marmo e metallo.

Cool neutrals interpret wall surfaces through a luminous, architectural language. Whites, grays, pearl, and mineral shades create airy surfaces that capture light and visually expand interiors. A palette designed for contemporary projects, where chromatic minimalism serves as the foundation for tone-on-tone blends, graphic contrasts, or dialogues with concrete, stone, marble, and metal looks.

Les neutres froids habillent les murs d'une écriture lumineuse et architecturale. Blancs, gris, perle et tonalités minérales créent des surfaces légères, capables de magnifier la lumière et de décupler les volumes. Une palette idéale pour les réalisations contemporaines, où l'épure chromatique sert de socle à des harmonies ton sur ton, des contrastes graphiques ou des associations avec les effets béton, pierre, marbre et métal.

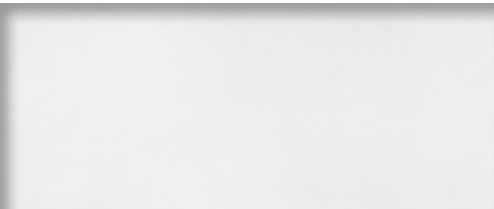

Kühle Neutraltöne verleihen der Wand eine helle, architektonische Note. Weiß, Graunuvancen, Perltöne und mineralische Farben erzeugen schwerelose Flächen, die das Licht einfangen und Räume optisch öffnen. Eine Farbwelt für zeitgemäße Entwürfe, bei der schlichte Farbigkeit zur Basis für Ton-in-Ton-Kompositionen, grafische Kontraste oder Partnerschaften mit Beton-, Stein-, Marmor- und Metalloptiken wird.

Green

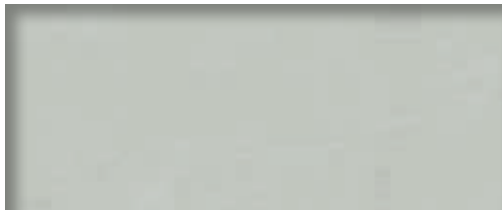

Verdi, natura e benessere.

Le tonalità del verde introducono nella parete un legame immediato con la natura, il benessere e la dimensione più organica dell’abitare. Dal verde salvia alle sfumature più profonde e minerali, la palette racconta atmosfere rilassanti, sofisticate e contemporanee. Anche in abbinamento ad altre superfici ceramiche , il verde diventa una scelta progettuale capace di trasformare gli ambienti in spazi equilibrati e avvolgenti.

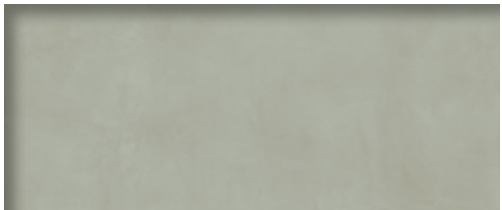

Shades of green create an immediate connection between the wall and nature, well-being, and biophilic living. From sage green to rich mineral shades, this palette conveys relaxing, sophisticated, and contemporary settings. Combined with other ceramic finishes, green emerges as a design-forward choice that transforms interiors into balanced, serene sanctuaries.

Les nuances de vert tissent un lien immédiat avec la nature, le bien-être et une dimension plus organique de l’habitat. Du vert sauge aux teintes plus denses et minérales, la palette inspire des ambiances relaxantes, sophistiquées et contemporaines. Même combiné à d’autres effets céramiques, le vert s’impose comme une signature de projet capable de transformer les espaces en havres harmonieux et enveloppants.

Grüntöne holen Natur, Wohlbefinden und organisches Wohngefühl direkt an die Wand. Von Salbeigrün bis hin zu tiefen, mineralischen Tönen erzählt diese Palette von erholsamen, edlen und modernen Atmosphären. Auch im Verbund mit anderen Keramikoberflächen wird Grün zu einem stilprägenden Element, das Räume in harmonische, behagliche Oasen verwandelt.

Earth

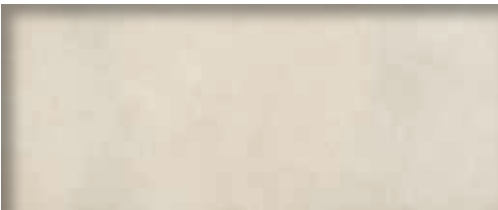

Toni della terra, materia e calore.

I toni della terra raccontano calore, materia e la profondità della natura. Argilla, terracotta, sabbia intensa, fango, ruggine e sfumature bruciate portano sulla parete una presenza ricca e avvolgente, capace di dare carattere agli interni senza perdere equilibrio. I colori dialogano con gli spazi e le altre superfici creando ambienti dal forte valore sensoriale.

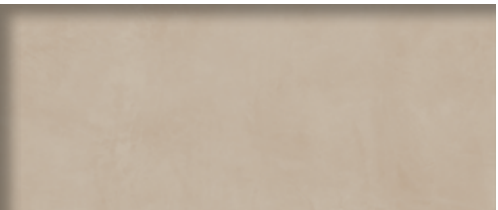

Earthy tones express warmth, substance, and the depth of the natural world. Clay, terracotta, rich sand, mud, rust, and burnt nuances lend walls an opulent, welcoming presence that brings bold character without losing balance. These shades interact effortlessly with surrounding elements and surfaces to shape environments rich in sensory appeal.

Les tonalités terreuses expriment la chaleur, la matière et la profondeur du monde naturel. Argile, terre cuite, sable chaud, boue, rouille et nuances brûlées insufflent au mur une présence riche et chaleureuse, capable de donner du caractère aux intérieurs dans un juste équilibre. Ces couleurs dialoguent avec les espaces et les matières pour donner naissance à des intérieurs hautement sensoriels.

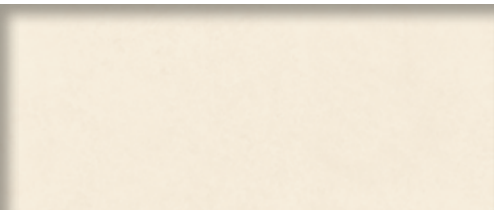

Erdtöne spiegeln Wärme, Materialität und die Tiefe der Natur wider. Ton, Terrakotta, satter Sand, Schlamm, Rost und erdige Nuancen schenken der Wand eine reiche, behagliche Präsenz, die Innenräumen Charakter verleiht, ohne die gestalterische Balance zu stören. Die Farben treten in einen intensiven Dialog mit Raum und Material und schaffen spürbare Sinnlichkeit.
